

Emilia Sipola

Software Developer · Tampere, Finland · she/her

sipolaemilia@proton.me · github.com/rephyr · linkedin.com/in/emilia-sipola-597aa7379 · emiliasipola.software

ABOUT

Software developer and owner of **Mrrp Software**, my own company making games and software tools. I build CLI tools, automation scripts, and web apps. Currently building **purr**, a terminal coding agent for small local models, and an indie game in **Godot**. On a break from my Computer Science studies at Tampere University.

Strengths: Fast learner · Full-stack range · Competitive discipline · Precise · Strong visual intuition

EXPERIENCE

Founder & Owner Mrrp Software (sole proprietorship) · mrrp.games Games and software tools. Building purr , a terminal coding agent (Python); Save Timelapse, a timelapse renderer for Factorio (Rust, Lua); and an indie game in Godot.	2026 – present
Food Manufacturing Cleaner ISS Palvelut Oy	Mar – Aug 2023
Construction Assistant Asiantuntijamestarit Oy	Summer 2021
Fencing Coach Tapanilan Erä Coached competitive fencers weekly.	2022

PROJECTS

Save Timelapse Rust · Lua · Turns a long Factorio playthrough into an interactive timelapse. Built for scale (hundreds of thousands of objects per factory) with its own file format, renderer and video export.	github.com/rephyr/save-timelapse
purr Python · A terminal coding agent built to get more out of small local models. Repairs the model's slips, checks every edit with lint and tests, catches loops, and splits big tasks into tickets. 82% on Terminal-Bench 2.1 with DeepSeek V4.1 Flash.	github.com/rephyr/purr
Indie game Godot · GDScript · A roguelike I'm designing and building on my own.	Private · In development
Personal Portfolio React · Vite · Tailwind · A bento grid of cards that open into sheets over a fixed photo background, with staged fade-ins.	github.com/rephyr/personal-website-bento
The Tab CLI · Python · Thermal printer · Multiplayer drinking game with real-time score tracking, an all-time leaderboard and automatic receipt printing.	github.com/rephyr/The-Tab
SMFileParser C++ · Parses .sm rhythm game charts and replays them with precise timing via simulated keyboard inputs.	github.com/rephyr/SMFileParser

EDUCATION

B.Sc. Computer Science Tampere University	2022 – on break
Matriculation Exam Helsinki Upper Secondary School of Natural Sciences	2018 – 2022

SKILLS & LANGUAGES

Languages: Finnish (native) · English (C1) · Swedish (A2) · Italian (A2/B1)
Tech: Python · Rust · C++ · Lua · React · Vite · Tailwind · Godot · Bash · Git · Linux
Databases: SQL · SQLite
Interests: Photography · Fencing · Programming · Cooking · Music

ATHLETICS

Top Ranking Finnish Fencer · Sabre
9+ years active · Tapanilan Erä
Finnish sabre ranking #1 (2020/21) · U20 national gold 2020
