Emilia Sipola

Software Developer · Tampere, Finland · she/her

sipolaemilia@proton.me · github.com/rephyr · linkedin.com/in/emilia-sipola-597aa7379 · emiliasipola.software

ABOUT

Software developer and owner of **Mrrp Software**, my own company making games and software tools. I build CLI tools, automation scripts, and web apps. Currently building **purr**, a terminal coding agent for small local models, and an indie game in **Godot**. On a break from my Computer Science studies at Tampere University.

Strengths: Fast learner · Full-stack range · Competitive discipline · Precise · Strong visual intuition

EXPERIENCE

Founder & Owner — 2026 – present
Mrrp Software (sole proprietorship) · mrrpsoftware.com
Games and software tools. Building purr, a terminal coding agent (Python); Save Timelapse, a timelapse renderer for Factorio (Rust, Lua); and an indie game in Godot.

Food Manufacturing Cleaner — Mar – Aug 2023
ISS Palvelut Oy

Construction Assistant — Summer 2021
Asiantuntijamestarit Oy

Fencing Coach — 2022
Tapanilan Erä
Coached competitive fencers weekly.

PROJECTS

Save Timelapse — github.com/rephyr/save-timelapse
Rust · Lua · Turns a long Factorio playthrough into an interactive timelapse. Built for scale (hundreds of thousands of objects per factory) with its own file format, renderer and video export.

purr — github.com/rephyr/purr
Python · A terminal coding agent built to get more out of small local models. Repairs the model's slips, checks every edit with lint and tests, catches loops, and splits big tasks into tickets. 82% on Terminal-Bench 2.1 with DeepSeek V4.1 Flash.

Indie game — Private · In development
Godot · GDScript · A roguelike I'm designing and building on my own.

Personal Portfolio — github.com/rephyr/personal-website-bento
React · Vite · Tailwind · A bento grid of cards that open into sheets over a fixed photo background, with staged fade-ins.

The Tab — github.com/rephyr/The-Tab
CLI · Python · Thermal printer · Multiplayer drinking game with real-time score tracking, an all-time leaderboard and automatic receipt printing.

SMFileParser — github.com/rephyr/SMFileParser
C++ · Parses .sm rhythm game charts and replays them with precise timing via simulated keyboard inputs.

EDUCATION

B.Sc. Computer Science — 2022 – on break
Tampere University

Matriculation Exam — 2018 – 2022
Helsinki Upper Secondary School of Natural Sciences

SKILLS & LANGUAGES

Languages: Finnish (native) · English (C1) · Swedish (A2) · Italian (A2/B1)
Tech: Python · Rust · C++ · Lua · React · Vite · Tailwind · Godot · Bash · Git · Linux
Databases: SQL · SQLite
Interests: Photography · Fencing · Programming · Cooking · Music

ATHLETICS

Top Ranking Finnish Fencer · Sabre
9+ years active · Tapanilan Erä
Finnish sabre ranking #1 (2020/21) · U20 national gold 2020
